

Dare to Be Square Speaker Tells Lions

The bedrock of our democracy has been ennobled upon... strongly... by a nation-wide wave of mass conformity," Worley Brown, chairman of the Florida Industrial Commission, told Lion members and guests in a challenging talk on Americanism at the Wednesday luncheon meeting here.

"While more and more people want to get reserved seats in the protected grandstand, fewer and fewer want to sweat it out down on the field. More and more people who apply for jobs, are asking 'What can you do for me?' rather than 'What can I do for you?' he said.

They want to talk about the extras they are going to get rather than the extras they are going to give, he continued.

The word square used to have a dignified meaning, he continued. "You gave me a square deal if you were honest. You gave him a square meal if he was hungry. You stood four-square for what was right and square against everything else."

Now a "square" is a fellow who was never smart enough to get away with it... a simple SOB who volunteers when it is not necessary... a stupid SOB who gets all choked up when he hears "God Bless America."

Let's revitalize and return dignity to the common square.

"Let me suggest that we all join the S.O.S.—the Society of Squares... Just an organization founded on basic principles of plain old horse sense," by program chairman George Ned Kerr, information officer of the Miami State Employment Service.

He was rushed to the Arcadia hospital and doctors report he suffered a broken neck, crushed arm, multiple cuts and bruises and possible internal injuries.

Mr. Edwards has been unconscious since the accident. Late Monday he was transferred to the Sarasota for further treatment. At present time his condition was reported as "still critical."

with "For He's a Jolly Good Fellow." Then the lights dimmed and on the screen flashed before the day had ended the life of Roy L. Litchfield at various stages.

First, he appeared as an equal to Little Lord Fauntleroy. The group began to learn through the moderator of the joys and sorrows which Fate had bestowed upon this handsome school man since his birth on the outskirts of Crewe, North Carolina, near the turn of the century.

He had attended Wake Forest College, where he played a trumpet in the band. He had joined the U.S. Navy immediately after college because his country was involved in World War I. After naval duty, he had married his first wife, who died soon after the birth of their only child, Florence. Some years later he met and married Miss Hazel Marie Taylor, who still today considers him an ideal husband. And he had spent years attempting to lighten the mathematics of his wife in the classroom.

Finally there came a time on the program for a special on the mathematics of Mr. Litchfield, who is now retiring as math teacher and assistant principal.

In conclusion, the group who, perhaps, understands Mr. Litchfield best presented him with a rod and a free-spinning reel, a landing net and a tackle box; education for those high school seniors and persons of high school age desiring to obtain credit in order to apply for driver's license. They proclaimed, "to his license."

Completely Modern Tire Repair and Recap Plant Opens In Belle Glade to Serve Lake Area Industries Needs

The 30'x110' CBS modern building will house new tire and battery sales plus a complete modern tire and recap business. Plans include the addition of a 15'x30' office and sales room to be added on the west wing.

Francis L. Harris and W. S. "Buster" Ingram, well known Glades business men, have combined their resources, knowledge and abilities to bring to the Glades the most completely modern up-to-date the sales and recap shop in the state.

The new business, housed in a modern 3300 square feet CBS building at 41 S.E. Avenue C, just back the Sinclair Refining Station on South Main Street opened their doors last week.

Pete Brookshire joins the business, bringing 25 years experience in the recap field. He was in the recap and tire repair business for five years in Pahokee with Paul's Sales & Service and is well known in the area. His background includes years of work at recapting in Atlanta and he was with the Norwalk Tire and Rubber Company, tire manufacturers, in Norwalk, Connecticut for many years. For a number of years he ran a truck out of Port Pierce and picked up tires all around the lake. He is presently living in Pahokee.

"I've been in practically all the recap shops in Florida and can honestly say we have the most modern, up-to-date shop in the whole state," Pete enthused.

The all new electrical equipment will handle recapting of truck tires 825x200, 900x20, 100x20, 100x22; most all passenger tires and popular sizes of commercial small truck tires.

Area Merits More Consideration; Many Road Tragedies Avoidable

Belle Glade's Jaycees insist that much needed road functions and banquet that Friday night were the focal point of an appeal to officials up to and including the Governor's office, for "immediate action to alleviate the deplorable road conditions now existing in this area, to the end that a recurrence of the tragedy of May 18th, may be prevented."

In a formal resolution the Jaycees say:

The legislative representatives, the city officials, and the citizens of the area have been literally begging the state to afford some relief in an effort to avoid in so far as possible just such a tragedy as occurred on the 18th of May, 1963, yet some of the publicity would have the public believe that this area's people are apathetic in the point of negligence and are thus responsible for the happening of the event. Further that the State Legislature in the 1963 session saw fit to deprive this

The recent growth of the sugar industry has put an additional burden upon these roads and the prospects are for a much greater load in the immediate future. This industry represents a huge economic boost to the state, and along with the vegetable industry in the area merits consideration at least, in protecting citizens employed therein so that they may travel to and from their business without being constantly exposed to such highway risks as presently exist in the area.

This resolution has had wide distribution to officials and to the news media and the new President R. E. Alston, "hopes all organizations will spontaneously join in the formulation of a community plan of action."

In a letter to State Road Chairman Phillips, President Alston refers to "the adverse publicity our city is receiving."

To the Governor the writer said, in referring to the bus accident, "we place the blame for this, and the hundreds of other fatal accidents in past years, on the inadequate and shamefully substandard roads."

UNCLE DAN from DOOLIE says:

DEAR MISTER EDITOR:
I see by the papers where several colleges is complaining that the honor system for taking exams at the end of this school year wasn't working none too good. We used that system back when I was a boy. The teacher would announce that we was on our honor and would we please all set three desks apart. It worked pretty good in them days and I'd recommend it for this generation.

It looks like the value of money is going less every day. For instance, I was reading this piece in the papers where penny weighing machines was about to disappear in this country. A feller in Memphis claimed he used to operate 500 of these machines but he's now down to 161 and aims to go out

of business. He says that 'just ain't no profit no more in traveling all over the area collecting the pennies. And up till it took a nickel to mail a letter, the nickel was about to get extinct like the Buffalo.

The fellers at the country store Saturday night was setting around giving each other the benefits of their doubts and Ed Doolittle said he had noticed where Congressmen from some of the farm states was trying to get a special item in Kinnedy's tax cut plan for giving the farmer a better deal with taxes. Ed Webster allowed as how this would bring on a heap of confusion on account of ever city gardner claiming he was a farmer. I don't know how this would work out. Mister Editor, I recollect hearing my Pa say one time that a real farmer could hear a hen cackle and tell whether she was laying or lying. If we all this new tax benefit for farmers, we might have to use the laying and lying test.

Zeke Grubb told the fellers he had saw a piece in the papers where the Government was spending \$30,000 at Beltsville in Maryland to build a hospital for the wheeling of special dogs. Zeke said he recollect that when old Charlie Wilson

took a job in Ike's cabinet he said that what was good for General Motors was good for the country, and Zeke figures that what is good for dogs ought to be good for people. He's in favor of the Government building special hospitals for expectant mothers. This brings a round of applause from all the fellers and it was so voted.

And my pamphlet yesterday from the U. S. Department of Agriculture reported they just completed a "study" showing how much more it costs to feed a teenage boy than a teenage girl. They announce, for instance, that it costs on average \$11.40 a week to feed a teenage boy between 16 and 19, and only \$8.80 for a girl the same age. It probably didn't cost more'n \$25,000 to make this "study," so I reckon it was worth it to the taxpayers.

Yours truly,
Uncle Dan

Doors Draped In Black For Pope John

By FR. FRANCIS X. FENECH

The main doors of St. Philip Benzi Catholic Church in Belle Glade are draped in black in mourning for Pope John XXIII

on his deathbed. Last Monday a Requiem High Mass, the third in the parish, was attended by the

children of St. Philip's. The period of mourning ends on June 16.

Born of an obscure peasant family, in an obscure place, the future Pontiff became a soldier in the ranks of the Italian army, a priest, a chaplain, a bishop, a diplomat admired in sophisticated capitals, a cardinal-patriarch and a pope. He served the church for more than 60 years, the last five as Supreme Pontiff.

Among the many distinguished features of Pope John's Pontificate were the convoking of an Ecumenical Council and seven Encyclical Letters—notably his more recent ones, "Mother and Teacher" and "Peace On Earth." He will be remembered as the Pope of Peace, being also the first individual to receive the Balzan Peace Prize. The Associated Press reported that Pope John "is probably the only pope who ever gained popularity in the Soviet Union."

Over two million people passed next to the bier of the dead Pontiff to pay him homage when he was lying-in-state under the Dome of St. Peter's Basilica in Rome, before he was buried on June 6 in a crypt selected by him during his pontificate.

Apostasy In Four Easy Steps

By Roscoe Knight, Min. There are several positions among religious people today concerning the possibility of apostasy. While it is possible, then, for one to fall, we must know the steps that lead to this dread estate. By knowing how it comes about we can guard against being a part of any apostasy.

The Apostle Paul in his writing to Timothy said "The time will come that they will not endure sound doctrine. This attitude simply is this that men will not allow the truth to be taught. If one persists in teaching the truth to those that are interested in error they will not listen to the teaching."

To end the teaching of sound doctrine, men will send those that teach truth rather than error. This is done in many ways, such as firing the preacher because he taught against your pet sin. Withdrawing from those who oppose innovations, many more could be named but these are enough to emphasize the point.

Next those who are prone to go on in this way will refuse to hear the truth or sound teaching. The writer of II Timothy says, "They turn away their ears from the truth."

Their errors are replaced with fables. They by this act go all the way into apostasy. They have fallen from their first love to espouse the teaching of the Devil.

Examine your position. Have you gone after pretty women and high sounding phrases, rather than the pure word of God? If you are espousing any religion that cannot be proven by the Bible, you have become a part of present day apostasy.

Sermon topics: Sunday a.m.: "How to Pray." Sunday p.m.: "The Promises."

HOW CHRISTIAN SCIENCE HEALS

W.W.W. 804 N. G. Sunday 12:45 p.m.

"Where are we looking for rest and relaxation?"

For Fathers

A survey was made among three hundred seventh and eighth grade boys for a two-week period to discover how much time fathers and sons spent together. Each boy kept an accurate record of the time spent with his father. The boys who saw Dad only at the dinner table comprised the largest group. A number of boys never saw their fathers for days at a time, some not even for weeks. The average time father and son had alone for an entire week was seven and one-half minutes.

The Bible says: "and Ye fathers, provoke not your children to wrath; but bring them up in the nurture and admonition of the Lord." (Ephesians 6:4) Fathers, are you giving the proper attention to your children?

SOMETHING OLD SOMETHING NEW

These — without anything borrowed or blue — came to her Wedding Day the sure promise of happiness.

Something old? A faith in God such as has been the foundation of life for millions of Christians before her. A simple conviction found in the religious instruction she received as a child, nurtured in regular worship at Church, ready to go with her through the years.

Something new? A love for the one she has consented to marry. A tender devotion that will grow richer and deeper as they share the sunshine and shadows of life.

With these two—the "something old" that lives in her soul, and the "something new" that thrills in her heart—she comes to her husband. And if he comes to her bearing the same treasures, their marriage cannot fail!

provement being shown in the remaining games Union will be able to make it rough for the rest of the teams.

In the second game Power Gas out-played South Bay Grocers and came out on top 4 to 3. The big difference was Gas' hustle and determination to win as they came through with the big plays at the right time throughout the game.

The brand of ball being played now shows a vast improvement over the past two seasons and with the younger boys coming up each year the playing and competition will get sharper.
